DETAILED ACTION

Response to Amendment

The amendment filed on 9/19/05 has been considered. Applicant's arguments are deemed to be persuasive-in-part.

Claims 30-40 are pending.

Claims 36-39 are withdrawn from consideration as being drawn to a nonelected invention.

Claims 30-35 and 40 are currently under consideration.

Applicant has fully complied with the sequence rules.

The rejections under 35 U.S.C. 112, second paragraph, and 35 U.S.C. 112, first paragraph, are withdrawn in view of applicant's amendment.

Response to Arguments

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.

2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 30-35 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Dano et al US 5519120 (issued 5/96) and further in view of Luther et al (American journal of Pathology 150:1231-1244, 1997) and Heiss et al (nature medicine, 1:1035-1039, 1995) and Terstappen US 5234816 (issued 8/93). The reasons for this rejection are of record in the paper mailed 7/16/04.

Applicant argues that none of the references or the combination of the references teach a prognosis. Applicant's claims are directed to diagnosis not prognosis. As clearly stated in the rejection, the primary reference does teach a method of diagnosis.

New Grounds of Rejection

Claim Rejections - 35 USC § 112

Claim 40 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. **THIS IS A NEW MATTER REJECTION.**

The specification as originally filed does not provide support for a second sample, contacting it with a second antibody that binds a different epitope and the comparing.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
